

Specialized Communication Resources for Children 2011/12 Workshop Calendar

Introducing two new workshop series for 2011-2012.....

Parents are invited to spend time with Lianne Belton O.T. from SCRC on the topic:

“Promoting Flexible Thinking and Interaction with Your Child at Home”.

Through a step by step series of discussions (seven sessions), care givers will discover how thoughtful changes to their own interaction style can lead to big changes. These weekly sessions take place in the evening, and each discussion builds on previous topics. Be prepared for a little homework to try each week!

Professionals are invited to share their time and experience with Stephannie Motuz, SLP from SCRC, on the topic:

“Promoting Dynamic Communication and Social Interaction in the Child with Special Needs”

Through a step by step series of discussions (five sessions), professionals will take an in-depth look at how to impact the caregiver’s interaction and communication style, leading to improved communication and flexible social behavior in the child. This series is for professionals who already have an introductory level of knowledge of relationship based developmental therapies. (Recommended: workshops entitled *Introduction to the Relate Program*, and *Introduction to Becoming an Effective Guide*).
